STAT

In response to the request in the referenced memorandum, attached you will find a list of additional items for your legislative watch list. I would assume that this watch list is being used as a backup for our monitoring Congressional activities such that if something was not on the list, we do not necessarily miss identifying and tracking that item of interest to the Agency. Exclusive reliance on such a list could potentially catch us unaware of a matter that has a major impact on Agency equities, thus, I would hope that exclusive reliance on such a list is not our intention. There may be occasion to add to this list periodically, and I would thus suggest we review it at least every six months if not quarterly.
